**Correction**

In the article “A Randomized Clinical Trial of High Eicosapentaenoic Acid Omega-3 Fatty Acids and Inositol as Monotherapy and in Combination in the Treatment of Pediatric Bipolar Spectrum Disorders: A Pilot Study” by Janet Wozniak, MD, and colleagues published in the November 2015 issue (*J Clin Psychiatry* 2015;76[11]:1548–1555), acknowledgment of donation of the inositol product by Life Extension has been added to the funding/support statement. The online version of this article has been corrected.
